

A Study on the Impact of AI in Academic Publishing

By Dr. Priya Sharma, Dr. Anil Mehta

Abstract:

This paper explores the growing role of Artificial Intelligence (AI) in academic publishing, focusing on peer review automation, plagiarism detection, and content curation.

Keywords:

AI, Academic Publishing, Peer Review, Automation, Plagiarism Detection

Introduction:

Artificial Intelligence (AI) has significantly influenced the academic publishing landscape. From automated peer review systems to intelligent content discovery tools, AI is reshaping how research is reviewed, published, and accessed. This paper delves into current trends, benefits, and challenges associated with AI integration in scholarly communication.
